

Careers in STEM: Science, Technology, Engineering and Math

More than 440,000 people are employed in STEM occupations in New York City. People working in these careers earned a median wage of **\$88,180**, which is 85 percent more than the median earnings of \$47,630 for all workers in the New York City region.

Do you want to make the world a better place to live?

If you are concerned about changes in the environment, creating better medicines and building new gadgets to make everyday life easier, consider a Science, Technology, Engineering and Math (STEM) education. A STEM education can give you the tools to help solve some of today's most perplexing problems.

Do you wonder what puts the thrill in a roller coaster?

It takes both design and engineering skills to develop a thrill ride. If you are curious about how things work and are a creative and original thinker, a STEM career could be for you.

Do you imagine solving crimes using the latest technology?

You could be a Forensic Science Technician in your local area or travel the world tracking the latest infectious disease. Professionals in STEM careers serve and protect people around the world. When you are in a STEM career, the work is never dull.

Are you in the top 10% of your high school class?

If so, ask your school counselor for information about the NYS STEM Incentive Program or go to the NYS Higher Education Services Corporation's website: www.hesc.ny.gov. If you qualify, you may receive a full State University of New York or City University of New York scholarship.

STEM Careers Pay! New York City Region

Occupation	Annual Median Wages*
